Principal's Blessings

Dear P6 students,

The COVID-19 pandemic has been a devastating blow to ordinary life. All of us, suddenly and without warning, are at the mercy of a force beyond our control. At times like this, questions of learning beyond classes come sharply into focus. Most of the extracurricular activities and examinations are cancelled. The use of different online platforms as a way for teachers to teach online is a vulnerable measure in education.

Despite evidence has been showing that the effects of COVID-19 on students' lives are unimaginable, I am so pleased that most of you are resilient to tackle the problems, like rearranging your schedule and learning to be more independent. A lot of thoughts and expressions shown in your Teen Writers' Collection are precious memories. It is astonished to see writing helps you think outside the box, unlock your personality, and push your mind towards new observations and conclusions. It gives your mind free to breathe in and express yourself better in a much more creative way.

I wish you every success in your future study. Keep in mind that writing can be a dynamic learning tool. Make your writings into a blessing to others during hard times. Your blessings in writing can be the other side of the embrace. I believe all the things will be resumed soon.

Keep it up!

With Love,
Ms. Kwok

Preface

Learning English, or any new language, is a life-long project. But it's a fun project because if you can speak the language when you're in a foreign country, you'll enjoy yourself much more. The nice thing about English is that it's the most common language in ALL countries.

Being able to speak English also gives you more opportunities and choices when you finish school.

Reading and writing are essential for learning grammar, vocabulary, and how to communicate your ideas. But speaking and listening to English is what you will do most.

I hope you write as much as you can! Your English will really improve. Don't forget to speak and listen and watch as much as you can too.

Make sure you are strong in all four areas, reading, writing, speaking and listening, and you'll do great!

Mr Adams
English Teacher

Dear Sir/Madam,

I am writing on behalf of my school to suggest ways of helping the environment. Climate change, hunting and pollution all lead to a lot of problems. Nature is in great danger. We must do something to save the Earth.

First, water pollution is becoming a serious problem. Oil spills from the ships will kill plants and small sea animals. The ship owners should check their ships regularly. Also, some people throw rubbish into the sea. Sea animals think rubbish is food and they will die after eating. We should throw rubbish into the rubbish bins but not throw rubbish into the sea. We must stop water pollution from getting worse. We need to stop water pollution and save the Earth.

Besides, land pollution is also a serious problem. People throw rubbish on the land. The environment will be very dirty. Birds and other animals will eat the rubbish and get sick. We need to reduce waste every day. We must stop land pollution from getting worse. Stop land pollution and save the Earth.

In addition, noise pollution is a serious problem, too. The noise is from the construction, cars, buses, trucks and planes. People cannot sleep well and animals will move from their homes. We need to be quiet after eleven o'clock. Others want to sleep. We should not make a loud noise at night. We must stop noise pollution from getting worse. Stop the noise and save the Earth.

If our Earth gets worse, we cannot live on the Earth anymore. I hope we can work together to save our Earth.

Yours faithfully,
Hanna Chung

Dear Sir/Madam,

I am writing on behalf of my school to suggest ways of helping the environment. Climate change, hunting and pollution all lead to a lot of problems. Nature is in great danger. We must do something to save the Earth.

First, air pollution is becoming a serious problem. We recommend the following methods to prevent air pollution, For examples, reducing the use of private vehicles, taking public transportation or reducing the use of air-conditioners.

The problem of land pollution is also very serious. We recommend recycling table wares, plastic bottles of personal care products, aluminum cans and iron cans. Reducing waste can lessen land pollution.

Besides, the problem of water pollution is also very serious. We suggest that there should be an activity like going to the beach to collect garbage. Industrial water waste should be treated and discharged, and the garbage should not be dumped into the sea. However, marine animals think that the garbage in the sea is food, and about 15 million marine creatures die every year from eating the garbage in the sea.

Finally, the problem of light pollution seriously affects people. We recommend avoiding bottom-up or top-down illumination, turning off the neon signs on the street in the middle of the night, and turning off the light in the room when leaving. However, excessive lighting in the workplace is also a kind of light pollution, which can make people feel uncomfortable, damage eyesight, and cause high blood pressure, headaches, and fatigue.

Start from today, let us work together and stay healthy.

Yours faithfully,
Moses Choy

Subject: Save the Earth

Dear Sir/ Madam,

I am writing on behalf of my school to tell you the ways of helping the environment.

Air pollution is becoming a serious problem in Hong Kong. It is caused by smoke. People get sick by breathing polluted air and animals move away from polluted areas. To avoid emitting too much smoke, people should use fans instead of air-conditioners in summer. We should use public transport instead of private cars. We should not use too much electricity.

Water pollution is also becoming a serious problem in Hong Kong. It is caused by people. People throw rubbish into the sea. Sea animals think rubbish is food. They eat the rubbish as food. People should throw rubbish in the rubbish bins instead of the sea. Stop throwing rubbish into the sea, save the Earth.

Land pollution is another problem in Hong Kong. It is caused by people. People throw rubbish everywhere. The environment is very dirty. We should throw rubbish in the rubbish bins. We shouldn't throw rubbish on the ground. Stop throwing rubbish on the ground, save the Earth.

We need to save the Earth because the Earth is getting sick.

Yours sincerely,
Isaac Lee

Subject: Ways to help the environment

Dear Sir/ Madam,

I am writing on behalf of my school to address our view about the global warming in the Earth. Our Earth is facing many problems now. First, it is regarding to air pollution. People drive cars and make the air dirty. Therefore, we are breathing in dirty air every day. We should take public transport instead of private cars. If we take by public transport instead of driving our own cars, the air will become fresher.

Second, water pollution is another serious problem we encounter in Hong Kong. Too many marine animals die because of the waste that entered into the sea. To ease the problem, we should reduce the pollution from its source. We should not leave any rubbish when we go to the beach. Everyone should not use goods or products that contain heavy chemicals. Also, we can hold a campaign such as beach cleaning day.

Third, it is the most serious problem in Hong Kong : land pollution. It is mainly caused by the rubbish that dumped into the landfill. Every day, tons of rubbish was sent to the landfill. To reduce the amount of waste, we ought to purchase less things and reuse old things. Moreover, we should produce less rubbish and use eco-friendly, bio-degradable materials. People can bring their own bags instead of using plastic bags when they go shopping. Also, people can use reusable products such as handkerchief instead of tissue paper. We should also use both sides of the paper so that less trees will be cut down. Recycle clothes that we do not wear anymore.

We really want more people can be aware of the problem and help the Earth. We would like to ask for your support. Thank you for reading our e-mail and for your support.

Dear Dora,

Hi! How are you? I went to Ocean Park with my parents yesterday. I was very excited because it was my birthday. We went there by car. In the car, I was asleep because I couldn't sleep well yesterday night. I was refreshed after taking a nap.

When we arrived, we went to watch a dolphin show. The dolphins jumped through the rings. The audience cheered and yelled. I was glad and I clapped my hands. We took a lot of lovely photos there. Then, we went to buy souvenirs. Suddenly, I found I lost my wallet! I was afraid and worried. I did not know where I dropped it. I was so disappointed. At that time, my dad comforted me and paid for the souvenirs. I was sad but I was happy. My father is really a wonderful daddy!

I went to school at eight o'clock this morning. It was rush hour, so the MTR train was very crowded. I was so excited when I was on the MTR train.

On the train, I saw a lot of people. They were old men, some women and children. A woman with two babies was standing in front of me. The babies were so cute. They were smiling at me. At that time, I was reading a book. Suddenly, the air conditioner stopped working. The mother fainted. The passers-by next to me were very worried. Then I called the police immediately.

After the police successfully rescued the baby's mother, all the passengers on the train were relieved. Luckily, the air conditioning was also resumed a few minutes later. It was really a terrible day!

An Unusual Experience

6A Lei Tsz Yiu

In the morning, I took the subway to go to school and I got bored when I was on the subway, so I took a book out to read.

Suddenly, the air conditioning on the subway broke down. Some people asked why the air conditioning was broken, and some people complained that it was too hot! The air conditioning on the subway broke down! Some people didn't say anything, only wiping the sweat with a towel. I heard the cry of the babies next to me. I quickly used the book in my hand to fan the babies.

Although I was also sweating, I first tried to soothe the babies. After a while, the babies were still crying. I suddenly saw their mother fainted on the ground. Everyone turned around and asked if she was okay. The uncle at the back supported her and made her lie on the ground.

Finally, an uncle said, "Hurry up and call for an ambulance!" I called quickly. When I got to the hospital after school, she said thank you to me.

It was really a terrible day!

A Person I Admire

Steven Spielberg is the person I admire. He was born in the USA in 1946. His occupation is a film director.

He had won the Academy Awards for the best director twice in 1993 and 1998. He was well-known for films like Jaws in 1975, ET in 1982, and Jurassic Park in 1993. I love watching Jurassic Park very much. It was very exciting.

He is very smart and humorous. I hope he can create more films for us.

My Dream Job

6A Choy Chung Laam

I want to be a lawyer when I grow up. I am interested in this job because I love to give people advice about laws and speak for them in court.

To be a lawyer, I need to read lots of books about law and be good at languages. I need to be knowledgeable because I can help people to fight for justice and peace.

I will do everything I can to make my dream come true.

My Dream Job

6A Yu Yuen

I want to be a fashion designer when I grow up. I am interested in this job because I love fashion design.

To be a fashion designer, I need to read a lot of books. If I want to make my dream come true, I think I should study art that is related to fashion design. I want to do this job because my sister is a fashion designer. She does very well in this job. Also, my sister can help me if I have any difficulties. These are the reasons why I want to be a fashion designer.

In order to make myself get ready for being a fashion designer, I think I need to prepare many things. For example, paper, pencils and ideas. The most important thing to becoming a smart fashion designer is an idea. If you don't have any idea or inspiration, you cannot have a new creation. Fashion needs to get a modern style of clothing and accessories. Besides, I must be a responsible person and confident. If I don't have any confidence, I cannot create new ideas or do well in my dream job. I hope I can be a fashion designer in the coming future.

I will do everything to make my dream come true.

Suddenly, the air conditioning was broken. The MTR train was very hot. The mother seemed to be a little dizzy. The babies started crying. I was sweating profusely and the two uncles next to me were at a loss.

The doors opened and we helped them out of the train. Then we dialed 999. The ambulance arrived immediately. Then, I went back to school. Although I was late, I was very impressed by this event. I hope they were all right.

First, I saw some new robots in a shop. They were my favourite toys, so I went into the shop. The shopkeeper said, "It is a new model. You can buy one and get one free." I felt very happy. I wanted to ask my mum to buy one for me.

At that time, an unexpected thing happened. I could not see my mum. I was very afraid and worried. "Where was she?" I asked myself. The shopkeeper gave me her mobile phone. She let me call my mum.

Finally, when my mum received my call, she came back to the shop. I immediately ran to my mum. We thanked the shopkeeper and left the shopping centre. My mum held me tightly. My mum did not want me to get lost again. I was so happy.

After going back home, we found that we didn't buy anything for my sister. We looked at each other and laughed.

Candy did not go to school last week. She was very sick and stayed in the hospital for a few days.

Candy is often ill and she was ill again this weekend. She had a fever. Her temperature was 38 C. She felt very tired and cold.

In order to help her to recover soon, I told her to drink more warm water and wear a mask. She should not eat too much unhealthy food, like oily food or spicy food. Besides, she should go to see a doctor. After seeing the doctor, she should follow the doctor's instructions to take medicine on time.

A gathering at Mid-Autumn Festival

For worshipping the Moon, Mark has already prepared a chicken but he has not bought some candies.

For appreciating the Moon, Aunt Daisy has already set up the chairs but she has not prepared the snacks and drinks.

Don't worry. Everything will be ready for the gathering at Mid-Autumn Festival.

Subject: A Day at Ocean Park

Dear Dora,

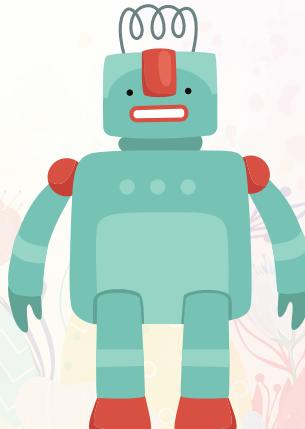

How are you? Yesterday, I went to Ocean Park with my dad and mum. First, we watched the dolphin show. I thought the dolphin was so smart because it did understand what the trainer said. We all clapped excitedly for the dolphin and the trainer.

Then, we went to the wishing pool, "I wish I can have a super big robot." I wished. I hope my dad would buy it for me as my birthday present.

After that, we went to the souvenir shop. I chose some souvenirs for my friends. When I wanted to pay for the souvenirs, I found that my wallet was missing. "Where is my wallet?" I asked. I felt scared. I put down all my souvenirs and ran back to the wishing pool as fast as I could.

Finally, I found my wallet beside the wishing pool. Although I did not buy any souvenirs, I could find my wallet. I thought I was so lucky and I felt so happy.

See you soon!

My Trip to Lamma Island

6B Chan Pak Yui Nick

Last Sunday, my parents and I went to Lamma Island because that day was my brother's birthday. It was hot but windy. We needed to wear a mask when we went out because of covid-19. We went to Star Ferry Central Pier to take a ferry to Lamma Island.

When the ferry was in the middle of the sea, the waves were huge and the deck was shaking. Suddenly, dark clouds filled the sky. It started to rain. 'Ther-crack! Boom!' Loud thunder and flash lightning appeared! It was a big storm. I thought we should stay at home but we didn't.

On the ferry, the deck was wagging trembly. Because of that, I felt really sick and wanted to throw up. Mum gave me a vomit bag from preventing to make the ferry dirty. Finally, my tummy couldn't resist it, so I took off my mask and vomited. When the people saw me vomit, they thought I've diagnosed covid-19, so they started to panic and called the ambulance.

When we arrived the island, a bunch of medics came to me and said, 'Come with us to the hospital. We were afraid that you've got covid. You need to be isolated from people for two weeks.' I was shocked and afraid I would die.

After two weeks, they found out I've just got an ordinary problem - seasick. I felt particularly relieved.

I am in Class 6B. We are very sad to hear the poor children in China. I am writing on behalf of my class to tell you we are planning to do three things to help the poor children in China.

We have some ideas to help the poor children in China. Firstly, I know they do not have enough food to eat, so we will donate or buy some healthy snacks to them, so that they can have enough food to eat.

Secondly, we know they do not have enough stationery, so we will ask teachers and schoolmates to donate some stationery to them.

Thirdly, we know they do not have enough money to spend, so we ask teachers and schoolmates to donate some money to them and they can buy the things they like.

We really want to show our care. We hope they can have a happy life. We hope we can get your permission to do these things.

Thank you for reading our letter and for your support.

Yours sincerely,

Reward from the Sea

6B Li Yi Han

Once there was a poor fisherman who caught a big flounder in his net. "Put me back. I will give you a reward from the sea." said the fish. "What kind of reward?" asked the fisherman.

"What do you want?" asked the fish. The fisherman answered, "My wife and I live in an old hut. It would be nice to have a house." "Put me in the sea, then go back to your house." said the fish. The man went home. He saw a nice little house and his surprised wife. He told his wife about the flounder. "The house is a reward from the sea," he said. His wife grumbled, "It's a small house. Why didn't you ask for a big house with a garden? Go back and tell the flounder this house is too small."

The man went to the sea and called, "Flounder, flounder, come to me. I need a reward from the sea." "What do you want?" said the fish. "My wife and I think the house is too small. It would be nice to have a big house," said the fisherman. "Go back to your house." said the fish.

The fisherman went home and he saw a nice big house. He was happy but his wife wasn't happy. She wanted to have more rewards. So, in the next morning, she jumped into the sea to find the flounder herself. But she didn't find the flounder and she drowned in the sea.

The fisherman was sad. He ran to the sea and shouted, "Flounder, flounder, come to me. I need a reward from the sea!" "What do you want?" said the fish. "I want my wife to come back," said the fisherman. "Go back to your house," said the fish.

The fisherman went back to his house. He saw the big house disappeared. There was only an old hut. But the fisherman was happy because his wife was in it. They lived happily ever after.

Good habit 1: Be punctual

I am often late. I ought to be punctual because I don't want other people to wait for me. Being punctual gives people a good impression of me and I won't miss out on anything in the lessons at school.

I have thought of a way to help me develop this good habit. I think I can leave home ten minutes earlier and set a timer to remind me to leave home.

Good habit 2: Be polite

I am often impolite to others. I ought to be polite because I want to be friendly and have more friends. Being polite makes people feeling well and giving people a good impression of me.

I have thought of a way to help me develop this good habit. I think I can greet teachers and classmates every day when I meet them at school.

Good habit 3: Go to bed early

I often feel sleepy. I ought to go to bed early because I don't want to feel tired in the next morning. Going to bed early gives me more energy. I can concentrate on the lessons at school.

I have thought of a way to help me develop this good habit. I think I can go to bed one hour earlier at night. I will set a timetable to wake sure I will finish all my tasks before eight every night. So I can go to bed early.

Healthy Eating

6B Fang Yui Yin

We should eat slowly and chew properly. We should make good food choices. We should stop eating when we are full. We should eat different colours of fruit and vegetables which have different vitamins and minerals.

My favourite healthy lunch is sushi. I eat it once a week. I like eating sushi because it is healthy and yummy.

I should eat more vegetables and fruit, meat and fish and dairy products. Cereal, pasta, corns, pumpkins, lettuce, papayas, melons and rice are good for me. I should eat less snacks and food that is high in fat and salt. Potato chips, sweets and hamburgers are bad for me.

Dear Marco,

How are you? I know you will come to Hong Kong next month. Let me tell you something about Hong Kong.

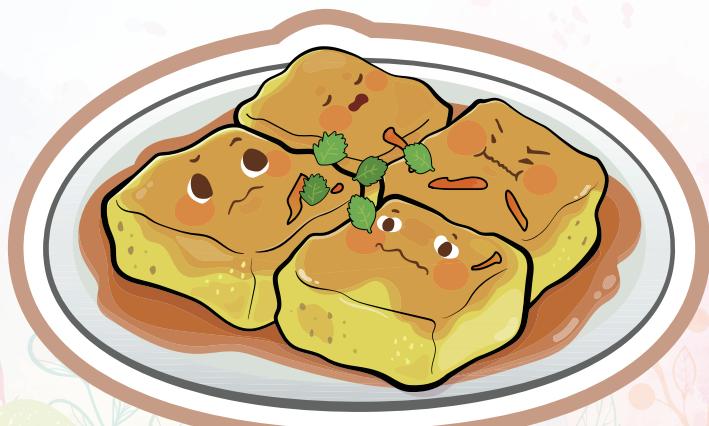

Hong Kong people usually wear T-shirts and jeans. Students wear school uniforms to school. American school uniforms and Hong Kong school uniforms are similar.

Our famous local food is stinky tofu. Although it is smelly, it tastes good.

For the languages, although we speak Cantonese, we also speak English and Putonghua in Hong Kong.

For the festivals, we celebrate Christmas and we sing Christmas songs and have parties with our friends and families.

Sick Candy

6B Lee Tsz Ying

Candy did not go to school last week. She was very sick and stayed in hospital for few days.

Candy is often ill and she was ill again this weekend. She had a cough, a runny nose and a sore throat. Her temperature was 38°C.

In order to help her recover faster, I told her to go to see a doctor. The doctor told her to get enough rest and drink more water. She also needs to take some medicine for her fever.

Candy has been ill several times this year. I think she should do exercise regularly and she will be stronger. She shouldn't drink cold water because it will make her stomachache. She should wear a mask because it can prevent germs spreading.

Healthy Eating

6B Leung Tsz Ching

My favourite healthy lunch is vegetable and meat spaghetti with fresh fruit. The vegetables, meat and fruit are packed in a recyclable box, which is very environmentally friendly.

I usually eat it once every two months because it is still fattening so I try to eat as little as possible. But I like it very much because it tastes good and has a lot of nutrition.

We should eat more vegetables and grains and less meat and dairy food. Cheese, sugar, salt, oil, fried chicken and fries are not good for our health. If you always eat them, they will cause diabetes and other diseases. Therefore, these kinds of food are not good for us. We should eat less. Vegetables such as broccoli, cabbage, and cereals are good for us, so we should eat more.

Michael Jeffrey Jordon is smart and encouraging. He did his best to win his games and became a famous and valuable basketball player.

Sick Candy

Candy is often ill and she was ill again this weekend. She had a cough, a runny nose, and a headache. She also had a fever and a sore throat. Her temperature was above 38°C. When she talked, her throat was pain.

In order to help her recover faster, I told her to see a doctor. The doctor told her to take some medicine. After seeing the doctor, I told her to get enough rest because rest is good for fever. I also told her to wear a mask when she goes out because it won't spread the germs to other people.

Candy has been ill several times this year. I think she should eat less fried food because if she doesn't do that, her sore throat won't be better. She shouldn't drink too much cold water. She should eat more vegetables because it is good for health. I hope she will recover quickly.

A Letter to a Principal

6B Ng Lok Yan

Dear Principal,

Ways to help the poor children in China

I am in Class 6B. We know the hard life of the poor children in China. They need to do a lot of housework and earn money when they are only five or six years old. Most of them cannot go to school to study. So, we want to help them. We think of three ways to help the poor children in China. We hope you will give us permission to do these three things.

Firstly, the poor children do not have enough healthy snacks or food. We think we can buy some cans of healthy snacks and food for them. We choose cans instead of fresh food as they can keep for a long time.

Secondly, the poor children do not have enough notebooks or paper for study. We think we can use wasted paper to make recycle notebooks. We can collect wasted paper in school and at home. Then we can make recycle notebooks together in the art lessons and send them to the poor children in China.

Thirdly, the poor children do not have enough stationery. We can collect some unused stationery from our schoolmates and donate them to the poor children.

We need to help the poor children to have a good study environment. We hope you will give us permission to do these three things.

Thank you for reading our letter and for your support.

Yours faithfully,
Ng Lok Yan

Healthy Eating

6B Tang XiYue

Healthy food is important for us. We should make good food choices and have a balanced diet.

We should eat grains, fruit and vegetables, meat and fish and dairy products. My favourite healthy lunch includes a lot of rice, a little milk, a lot of broccolis and a little beef.

Grains give us energy. That's why we should eat more grains than any other food types. We should eat slowly and chew properly when we eat.

Fruit and vegetables help us stay healthy. We should eat different colours of fruit and vegetables which have different vitamins and minerals.

Meat and fish us grow strong. However, we should eat less meat that is high in fat or salt.

Dairy products keep our teeth and bones strong. We should choose dairy products that contain less fat.

My Trip to Lamma Island

BB Tsang Fei Wan

I went to Lamma Island to go hiking. My parents and I took a ferry to go there. It was windy when we got on the ferry.

On the ferry ride, the weather turned worse. Huge waves and strong wind made the ferry toss. Thunder and lightning scared the people.

I felt sick so I threw up in a plastic bag. My parents were so worried about me. We were afraid that we couldn't go hiking because of the bad weather.

Luckily, when we arrived at Lamma Island, the weather was fine and we could start our trip.

My Trip to Lamma Island

BB Yip Qi Cong

Last Sunday, my family and I went to Lamma Island to go hiking. I was very excited because it was my first time to take a ferry. It was windy when we got on the ferry.

After fifteen minutes, there were loud thunders and flash lightning in the sky with huge waves in the sea. I felt sick and I wanted to throw up. My dad and mum took out a plastic bag for me quickly. I immediately threw up in it.

Suddenly, our ferry crashed into something. The ferry stopped and someone got on the ferry from another boat. He said, 'I am Jack Sparrow. Hand over all your valuable things.' We were scared and handed over all our money. The man got all our money and jumped onto his boat and sailed away in a high speed.

At the end, we arrived at Lamma Island with no money. We got off the ferry and went to the police station immediately. We reported that to the police. Finally, we cancelled our trip and went home sadly.

The Day in a Shopping Mall

6C Chan Ivana

Yesterday was my mother's birthday, so I suggested to go shopping. I decided to buy her a present. We took the MTR there. When we arrived the shopping center, Mum went into the Wyman's Shoe Shop. She wanted to buy a pair of new boots. "Steven, these boots look nice, don't they? "asked Mum.

I didn't answer her because I was attracted by a toy shop next to the shoe shop. There was a shiny robot displayed near the entrance of the shop. It looked so cool. I couldn't help getting into the shop. Then the shopkeeper said, "It is cool, isn't it? It is the latest model and it is on sale now," said the shopkeeper. I was very interested. When I went back to the shoe shop and wanted to tell mum, I couldn't find her. Feeling nervous, I cried. "Mum, where are you?" The shopkeeper heard me and asked me what happened. I told him I couldn't find my mum and I started to cry. The shopkeeper comforted me," Don't worry! I can lend you my phone. You can call your mum."

A few moments later, mum went back to the shopping center. I said sorry to her and promised it won't happen again. "Nevermind, my dear. Do you want to have this robot? Let me buy it to you," said mum. Finally, we went home together with a robot and a pair of new boots. We were both delighted .

An Unforgettable Day

6C Chan Long Chai

Last weekend, my friends and I went to Sai Kung Country Park to have a picnic.

When my friends were rolling out picnic blanket, I saw a creature that has two little red eyes and its fur is as white as snow- it is a rabbit.

The rabbit looked so cute and I wanted to touch it. Therefore, I walked slowly towards the rabbit. When I was about to touch it, it saw me and hopped quickly into the woods. I followed it and ran into the woods. There were lots of trees in the woods and I could not find the rabbit. It was like it has disappeared in the woods.

Suddenly , I tripped over a stone and twisted my ankle, I cried loudly but no one heard it.

A boy suddenly saw me and brought me back to my friends. I thanked the boy who saved me.

Although I twisted my ankle, I still find it an exciting day.

A Special Experience

6C Chan Man Kwan

Last Sunday, Alice went to Sai Kung Country Park with her parents.

When her parents was rolling out the picnic blanket, she saw something white and fluffy with sparkling red eyes. It looked as if it was eating the grass. She was not sure what that was. Feeling curious, she approached it carefully—it was a timid lovely hare. It looked as white as snow. It was very lovely that she couldn't resist touching it.

When she got closer to it, “Ring ring ring,” her phone rang all of a sudden. The hare discovered Alice and wanted to escape. It hopped away. Alice chased after it into the woods. It was very dark inside the woods. Alice could barely see anything clearly. Unfortunately, Alice tripped over a stone and hurt her legs. She was so painful that she could not walk nor move. Worse, she didn't bring her phone with her so she couldn't call her parents or the police. At that time, Alice felt helpless. She cried loudly and scream “Help! Can anybody help me?”

Abruptly, Alice vaguely heard someone asking, “Is there anybody here?” “Yes! My leg is hurt. Can you help me?” She yelled. “Oh! Wait for a minute!” Luckily, she was found. She would be rescued. It was a nice man with gentle voice. Alice felt perplexed and thought the gentle voice sounds familiar to her. She thought, “It can't be...”

Surprisingly, she was right. The one who saved her was the famous movie star-Chow Yun Fat! He saved her and helped her to call her parents and the police.

Half an hour later, the ambulance came and took Alice to the hospital. Fortunately, she didn't break her legs. She thanked Chow Yun Fat. “Thank you for your help, Mr. Chow!” said Alice. Mr Chow replied gently, “You're welcome! You need to remember that you shouldn't leave your parents anymore!” Although her legs were hurt, she was very happy because she met the famous movie star.

Yesterday was a terrible yet exciting day in Alice life.

Dear Diary,

My parents were free today so they went out with me to have fun. We did two special activities today.

In the morning, we baked cookies at home. I felt so excited because it was my first time to bake cookies. It took us a long time to make the cookie dough. Then we shape it in different shapes. Although this was difficult, we succeeded. We were so amazed about it. My sister and I even jumped up and down.

In the afternoon, we went for a bike. We brought some cookies that we made because we haven't finished them yet. The cookies were so yummy. I think I will make it again. I was eating cookies while I was enjoying the view. I feel so comfortable.

What a fantastic day! I was so pleased today. I will go hiking with my parents again and I will not forget to bring my cookies with me!

Luckily, people around me knew how to do the first aid. They told others not to get close to her so that she could breath. An old woman took care of her babies.

A robbery took place in the park yesterday in the evening. Luckily, the robber failed and he was arrested by a police officer.

While our student, Johnny, was playing happily in the park, something evil happened.

A masked man with a knife came and pointed at Johnny. He ordered, "Give me all your money or I will kill you!" Johnny was terrified but he has no money. He stood still, staring at the robber. "I..... I have no money!" said Johnny quietly. The robber heard this and felt angry. He shouted, "You really want me to stab you, don't you?" While the robber was going to stab Johnny, the dog ran out immediately and bit the robber fiercely. The robber was hurt and he dropped his knife. Someone heard the noise and saw the incident, so they called the police.

The robber was bleeding badly when the police officer arrived. At last, the thief was arrested by the police. The police praised the dog and named him Super Dog.

A Letter to Dora

6C Zhu Hei Lam

Dear Dora,

How are you? It has been a long time not seeing you. I have to share my unforgettable experience with you.

Yesterday, my parents and I went to the Ocean Park. We went to the Ocean Theatre to watch the dolphin show. The dolphin trainer was holding a hula hoop and the dolphin jumped across it with ease. All the audience clap their hands loudly for the wonderful performance. I was amazed by how smart the dolphins were!

The show was so good. When I stood up and clapped hands loudly. I did not realize I have dropped my wallet.

Then, we went to the souvenir shop and bought some souvenirs. I wanted to buy a pen with a toy dolphin charm. I realized that my wallet was missing. I felt scared and nervous.

I went back to the Ocean Theatre but I couldn't find it. Therefore, I reported the case to the lost property office. Luckily, somebody gave it to the office and I could have my wallet back. I learnt that I should be more careful.

Please write back soon.

Yours,
Timmy

Dear Principal,

Ways to help the poor children in China

I am in Class 6D. We are going to plan to do something to help the poor children in China. I am writing on behalf of my class to tell you that we were planning to do three things to help them.

We have come up with some ideas to help the poor children in China. Firstly, if we ask students to donate their storybooks or used learning materials, the poor children in China will be able to learn with the donated reading materials.

Secondly, if we collect old model computers or ipads, the poor students in China will be able to have computers or ipads for study.

Thirdly, if we collect those old clothes from students, the poor students in China will be able to keep their body warm with the clothes. The new clothes make them feel more confidence.

We really want to show our care. We hope you will give us permission to do these three things. We need to be quick as the students are waiting for help.
